SUMMARY

I am a passionate and motivated web developer currently pursuing my second year of a Bachelor of Technology degree. I have a strong interest in web technologies and am eager to learn and improve my skills in both front-end and back-end development. I have gained practical experience through personal projects and coursework, and I am excited to contribute to real-world web development projects. My goal is to continue enhancing my skills and grow as a web developer in a dynamic and challenging environment.

STRENGTHS

Adaptability

Living in a hostel away from home has made me highly adaptable. I quickly adjust to new environments, handle unexpected situations, and thrive in diverse settings, whether academic or social.

Time Management

Managing my studies, personal life, and hostel responsibilities has sharpened my ability to prioritize tasks effectively and meet deadlines without compromising quality.

Problem-Solving

Facing challenges like limited resources or unplanned situations in the hostel has enhanced my problem-solving skills. I always find creative solutions to manage issues efficiently.

Self-Discipline

Hostel life required me to develop self-discipline, from maintaining routines to staying focused on my goals, even with distractions around me.

KEY ACHIEVEMENTS

Smart India Hackathon

Got 3rd prize in college level Smart India Hackathon.

PROJECTS

PERSONAL PORTFOLIO

08/2024 - 11/2024 Bhubaneswar

Short summary of your work

- This personal portfolio project showcases my skills as a web developer, built using HTML, CSS, and JavaScript. It features a clean, responsive design with sections for my work, skills, and contact details. The website includes interactive elements, such as smooth scrolling and dynamic content display, enhancing user experience. The project demonstrates my ability to create visually appealing and functional websites, emphasizing my passion for web development.

FITPULSE

06/2024 - 07/2024 Location

Short summary of your work

- This gym website project, built using HTML, CSS, and JavaScript, offers a modern, user-friendly platform for fitness enthusiasts. It includes a responsive design, interactive features like workout plans, class schedules, and membership options. The website provides a clean layout with smooth navigation, ensuring a seamless user experience across devices. This project demonstrates my ability to create visually appealing and functional websites tailored to the fitness community.
